Who are Rose House funeral Supplies?

Rose House is a family-run funeral equipment supply company established in the UK in 1971. We work directly with UK manufacturers and specialist suppliers to provide Funeral Directors, Hospices, and Hospitals with a comprehensive range of products—from body bags, gloves, and ID bracelets too mortuary refrigeration units.

We are active members of key UK trade organisations, incl. the National Association of Funeral Directors (NAFD) & British Institute of Funeral Directors (BIFD).

In April 2025 to support enquiries from Australia & other Commonwealth countries, we established our Australian office.

Rose House Funeral Supplies Pty Ltd, based in Sydney, NSW2000

We look forward to working with you all. Our family working with yours.

Quality, Value and Service since 1971

Mortuary fridge or Coldroom Racking

Fully adjustable Stainless steel racking with Full width rollers and tray guides to ensure alignment with the lifter The levels are simple and easy to adjust. Supplied flat packed and in bariatric or side loading sizes.

The **Dual sink embalming station** is ideal for washing using a scissor lifter. The body tray overhangs the end of the lifter allowing water to drain into the front sink unit.

A separate sluice unit is required for removal of internal body fluids.

See Section—Sinks and Sluices

Mortuary Stainless Steel

The cabinet is typically made of stainless steel, which offers durability, resistance to corrosion, and ease of cleaning. Also provide access to the interior compartments, allowing for organized storage and easy retrieval of items.

Stainless steel cabinets are often used in environments where cleanliness and hygiene are important, as stainless steel is non-porous and can be easily sanitized. They are also known for their sleek and professional appearance, making them suitable for both functional and aesthetic purposes.

These cabinets come in various sizes and configurations, allowing for customization based on specific storage needs. Some may include adjustable shelves or internal dividers to further enhance organization and maximize storage capacity.

RESOURCES FOR FAMILIES CARING THROUGH GRIEF

Death Dying & Donuts, written by Oncologist Dr Colin Dicks brings a well researched, and well presented guide to what is required when facing end of life. Covering topics such as legal matters, end of life emotions, palliative care, funeral planning, and bereavement, Dr Colin Dicks addresses death education in a humourous, helpful and thought-provoking way, using powerful anecdotes. This book prepares and encourages its reader to make the most of their life, and cherish their loved ones in their final days.

ISBN: 978-0-6453697-2-4 Pages:168 RRP:\$29.99

Nanna's Ladybird, written by school teacher and author Melanie Hunter, is a connective story to help children navigate through bereavement when they have lost a grandparent. With its gentle approach to emotions surrounding grief, this healing book helps children gather their memories of their loved ones through the places and spaces previously shared together.

ISBN: 978-0-6459337-3-4 Pages:34 RRP:\$24.99

Fold Away Mortuary Wash Table

This collapsible table is designed to offer a solution for easy transportation and/or compact storage.

The fully welded stainless steel fabrication provides a wide stable platform and is designed to give many years of safe and reliable use.

The centre rail is secured with four hand adjustable locking screws, forming a rigid platform which also serves to secure the hinged legs in place when collapsed.

Built with a standard working height of 900mm and an inbuilt decline of 40mm for drainage. There is some scope in manufacture to adapt these to suit your own dimensions or alter the working height.

Ask about our leasing plan

Mortuary Wash Table

The Mortuary Wash Table is made to a very high standard and is specifically designed so that families or mortuary staff can wash the deceased in a professional manner and in keeping with religious beliefs. A single drainage hole with pipe ensures that used water flows easily away into a drain. This Wash Table is available in bariatric sizes and with folding legs if required. This complements our folding or fixed dressing table.

Roll on, Roll off Mortuary Wash Table

New to our range is the Roll on Roll off Mortuary Table. This stainless steel table was designed bespoke to suit the requirements of an embalmer and is proving popular for both preparation and wash/dress.

- * Table feature incline to improve drainage*
- * Dimensions can be tailored to your requirements*
- * Table is fitted with castors for ease of maneuverability and storage*
- * Designed to work with our Dual Height Sink & Sluice*
- * Stainless steel mortuary trays can & slats can also be supplied*

First Call Fold Away Stretcher

The Fold Away Stretcher is a duo-fold design, allowing a normally bulky item to require minimum storage space when not in use. The stretcher folds both horizontally and vertically into the compact dimensions shown below. The frame, manufactured from aluminium, is both strong yet lightweight. The stretcher bed is produced from a tough PVA material that is resistant to fluid and is extremely easy to clean.

Once locked open, the frame ensures the deceased are kept clear of the ground.

Complete with fully zipped carry bag and straps.

EQUIPMENT
LEASING

Dimensions

Open 204cm x 71cm

Folded 88cm x 24cm

Scoop Stretcher

A tried and trusted design, used as a staple item by Emergency Services and Rescue Organisations for many years. Its main function, is to transport the injured & deceased safely. Instead of a flat, plain bed, the stretcher incorporates a frame of hinged panels. In their unlocked position, each panel is capable of being swivelled, (rather like a cellar trapdoor). Without disturbance to the body's position, the stretcher can be manoeuvred in such a way that allows each of these panels or flaps to slide underneath the body. Once in its final position, all the plates are locked into place and the deceased can be safely moved. Instead of being lifted onto a traditional stretcher. One vital feature is the way the stretcher maximises patient immobilisation during transit.

Gantry Hoist

Gantry Hoist

Our gantry hoist provides a unique and innovative method of body transfer. Our 2 strap design has no obstructive spreader bar which offers a safe and dignified transfer with minimal contact between the body and the user. The 2 strap design offers fantastic stability during the transfer with a smooth and soft function that creates a gentler positioning of the body.

The necessary ceiling tracking is also available for these products, with a track system that completes the versatility of the Ceiling Hoist. There are various different kinds of tracking available to suit different environments. We offer room to room transfer tracks, wall support, track switches and wall brackets. For more information on this product and the differences in tracking please contact us or visit our website.
